## **LABORATORY NOTEBOOK CHECKS**

**Dr. Jim Bidlack**

---

### **LABORATORY NOTEBOOK CHECKS**

There are two (2) lab notebook checks during the semester as indicated on the Tentative Syllabus. The purpose of laboratory checks is to encourage and reward students for completing drawings and other assignments in laboratory manual. Each student will be asked to turn in a randomly selected laboratory assignment from the lab manual, which should be completed before it is requested. The assignment will be graded on the basis of completeness, organization, clarity, neatness, and creativity.
